

Code:

```
#include <Arduino.h>

void recurse(int depth)
{
    char buffer[512];

    Serial.printf("Depth: %d\n", depth);

    for(int i = 0; i < 512; i++)
    {
        buffer[i] = i;
    }

    recurse(depth + 1);
}

void setup()
{
    Serial.begin(115200);
    delay(1000);

    Serial.println("=== Recursive Stack Test ===");

    recurse(1);
}

void loop()
{
}
```

Output:

Depth: 1

Depth: 2

Depth: 3

Depth: 4

...

Depth: 120

Depth: 121
